Adding GFP Items without UIIs to the Registry	70

### **IUID Flat File Specification**

### **Purpose**

This document provides an alternate, flat file format to the IUID Registry XML format (IUID Schema Version 5.1.1) for providing data to the IUID Registry. It has the same capability as the IUID Registry XML format to record end and embedded items with UIIs for legacy and newly procured populations as well as record mark, custody, rollover, disposition, parent, type designation, owner, and special tooling or test equipment information and changes. It also has the capability to report items without UIIS that are provided to contractors as Government Furnished Property under a contract.

### **Implementation**

At the time of this writing, the current capability for processing specific versions of the IUID Flat File is denoted in the table below. As the oldest version of the IUID Registry Schema will be retired each time a new version is implemented, those entities currently using IUID Flat File Version with a retirement date listed should consider converting to the latest IUID Flat File version to provide the longest time frame before having to move to a newer version.

Flat File		Flat File
Specification	IUID Registry	Specification
Version	Schema Version	Retirement Date
1	3.0	Retired
2	3.4	4/2012
3	4.0	2/2013
4	4.1	WAWF 5.6
		deployment
5	5.0	WAWF 5.6
		Deployment
6	5.1.1	unscheduled

**Note**: Not every IUID Registry Schema version results in an IUID Flat File Specification.

#### **General Instructions**

The following pages describe each individual record and its elements. A description of each column is:

Field Name Contains the name of the element.

**Format** The format of the element:

A	Alphabetic characters only (a-z, A-Z)
AN	Alphanumeric characters (a-z, A-Z, 0-9)
DT	Date in the format CCYY-MM-DD (i.e. 2005-07-15).
Nv	Numeric; no special characters such as dollar sign or cents
	('\$' or '¢'); if decimal point ('.'), v is number of digits to
	the right; if no decimal point $v$ is replaced with '0' (zero).
R	Real numbers only; floating decimal point allowed ('.'); no
	1 11 1 (//h.)

dollar sign ('\$').

Min/Max Denotes minimum and maximum size of the element. For example, a min/max of 3/6 means that the data value must be at least three characters

long and cannot exceed six characters.

Specifies whether an element is required or not: Req

C	Conditional; requirement depends on value or appearance
	of other elements.

I Not used when sending data to the IUID Registry; used

when sending data between industry partners.

Mandatory; must always be provided. M Optional; may or may not be provided.  $\mathbf{O}$ 

Description Provides a brief description of the data element and where applicable, a list of valid values and element dependencies.

Each file is made of several records. The first record must be a File Header Record and the last record must be a File Trailer Record. In between may be a variety of records depending on the information that is being reported – new items or changes to existing items. Each record is made up of variable length fields delimited with the ^ symbol.

At the end of this document are three examples. One example adds items with UIIs to the IUID Registry; the second example updates items with UIIs that are in the IUID Registry; the third example adds items without UIIs that are Government Furnished Property.

#### Generic File Structure

The number and type of records used in a file depends upon the information being conveyed but the basic order of the records remains the same. If all records are used for one item, the preferred order would be:

H000	Header
A100	Add Item
A200	Add Custody
A300	Add Mark
E200	Custody Event
E300	Mark Event
E400	Rollover Event
E500	Embedded Event
E600	Life Cycle Event
E700	Miscellaneous I Event
G100	GFP without UIIs
G200	Shipment
G300	Item Characteristic
G400	Document Identifier
T900	Trailer

But this would never realistically occur since the first time an item is recorded in the IUID Registry; its current state is recorded, not its prior history. From that point forward, the IUID Registry would capture events that occurred to the item.

The records are grouped by item. If three non-GFP items with UIIs are being added with three marks apiece, then the records would appear in the following preferred order with the records for item one followed by the records for item two followed by the records for item three:

H000	Header
A100	Add Item
A300	Add Mark
A300	Add Mark
A300	Add Mark
A100	Add Item
A300	Add Mark
A300	Add Mark
A300	Add Mark
A100	Add Item
A300	Add Mark
A300	Add Mark
A300	Add Mark
T900	Trailer

To record an event about two items with UIIs in the registry that are being provided to a contractor as GFP, the records would appear in this preferred order:

H000
------

E200	Custody Event
E200	Custody Event
T900	Trailer

If those two items are being returned to the Government at the end of the contract along with three items the Government is taking possession of, the following preferred record order would be used. All items have a UII and were marked with a 2D-Compliant mark by the contractor before being sent or returned to the Government:

H000	Header
A100	Add Item
A300	Add Mark
A100	Add Item
A300	Add Mark
A100	Add Item
A300	Add Mark
E200	Custody Event
E300	Mark Event
E200	Custody Event
E300	Mark Event
T900	Trailer

To record items without UIIs that have been provided to a contractor as Government Furnished Property, the following preferred record order would be used. The use of the Shipment, Item Characteristic, and Document Identifiers is dependent on the information that is applicable to bin of items defined in the GFP without UIIs record.

H000	Header
G100	GFP without UIIs
G200	Shipment
G300	Item Characteristic
G400	Document Identifier
G100	GFP without UIIs
G100	GFP without UIIs
G100	GFP without UIIs
G300	Item Characteristic
T900	Trailer

See the examples at the end of the document for samples of the actual records.

**NOTE**: While the Header record must be the first record in the file and the Trailer record must be the last record in the file, the other records may be in any order. The file will be sorted into the desired record sequence by the recipient system.

## File Header Record (H000)

Must be the first record in every file.

Must be one and only one per file.

Header Record				
		Min/		
Field Name	Format	Max	Req	Description
Record Type	A	1/1	M	Always "H"
Record Number	N0	3/3	M	Always "000"
Email	AN	1/80	О	Email address of the person or office listed in
				Name.
Name	AN	1/120	M	Person or office that would be contacted if there
				were technical issues associated with the file.
Organization	AN	5/5	M	The 5 character CAGE, 6 character DoDAAC, 6
	AN	6/6		character MAPAC, or 9 digit DUNS of the
	N0	9/9		organization providing the file.
Phone	AN	1/25	M	Phone number of the person or office listed in
				Name.
Version	AN	3/6	M	Always "5.1.1"
Industry Flag	A	1/1	I	Always "Y" when provided. States that the file is
				not destined for the IUID Registry.
				When the transaction is generated by a
				government application or system:
				Do not provide Contractor Identifier
				Provide Administrator DoDAAC
				3. Provide one or both of a. and b.:
				a. DITPR Number
				b. System Name and System Version
				When the transaction is generated by a contractor
				application or system:
				,
				Do not provide DITPR Number or
				Administrator DoDAAC
				2. Provide Contractor Identifier, System
				Name, and System Version
DITPR Number		4/8	С	The DoD Information Technology Portfolio
				Repository (DITPR) Number assigned to the
				government application or system that generated
				the transaction.
Administrator	AN	6/6	С	The DoDAAC of the entity that administers the
DoDAAC				government application or system that generated
				the transaction. This may or may not be the same
				entity that uses the application or system.

Header Record				
Field Name	Format	Min/ Max	Req	Description
Contractor Identifier	AN N0	5/5 9/9	С	The 5 character CAGE or 9 digit DUNS of the organization who administers the contractor application or system that generated the transaction. This may or may not be the same
System Name	AN	1/30	С	entity that uses the application or system.  The name of the application or system that
System Version	AN	1/10	С	generated the transaction.  The version of the application or system that generated the transaction.

### **Records to Add New Items (A)**

The records depicted in this section are to be used when an item, legacy or newly procured, is reported to the IUID Registry for the first time.

NOTE: Newly procured end items are reported via the Flat File Specification only when a contract fails to comply with DFARS 204.71 such that the number of deliveries exceeds the quantity on the line item.

Optional and conditional fields may be populated as long as the rules surrounding them are met. For example, in the Item Record, the Original Part Number may be provided when the UII Type is other than UID2.

### Item Record (A100)

Provide one per item that is being added into the registry.

Item Record						
		Min/				
Field Name	Format	Max	Req	Description		
Record Type	A	1/1	M	Always "A"		
Record Number	N0	3/3	M	Always "100"		
UII	AN	1/50	M	The Unique Identifier that ensures uniqueness of		
				all items listed in the registry.		
Item Type	A	3/3	M	Flag that identifies the item as an end item or an		
				embedded item. Select from the following list:		
				END – End Item		
				EMB – Embedded Item		
Population Type	A	3/3	M	Flag that identifies the population an item		
				belongs to. Select from the following list:		
				NEW – Newly purchased item.		
				LEG – Government owned item in the		
				custody of a government entity		
				PPC – Government owned item in the		
				custody of a contractor		

Item Record						
T2 -1.1 NJ	E4	Min/	D	D		
Field Name Compliant Mark Flag	Format A	1/1	Req M	Description Flag that states whether the UII is marked on the		
Compliant Mark Flag	A	1/1	IVI	item in compliance with IUID Policy. When the Population Type = "LEG" or "PPC", select from the following list:		
				Values:  Y – Marked with a 2D data matrix in accordance with DoD policy, ISO/IEC 15434. N – Not marked in compliance		
				When the Population Type = "NEW", the item must be marked with a compliant 2D data matrix. Enter:  Y – Marked with a 2D data matrix in		
				accordance with DoD policy, ISO/IEC 15434.		
UII Type	AN	3/10	M	Designator to indicate which method has been used to uniquely identify an item.		
				Values:  UID1 - UID Construct 1  UID2 - UID Construct 2  VIN - Vehicle Identification Number  GRAI - Global Returnable Asset Identifier  GIAI - Global Individual Asset Identifier  ESN - Electronic Serial Number		
Issuing Agency Code	AN	1/3	С	Designator to indicate which code was used in the Enterprise Identifier. Required if UII Type is UID1 or UID2.		
				Values:  D - CAGE  LB - ANSI T1.220  LD - DoDAAC  LH - EHIBCC  UN - DUNS  0, 1, 2, 3, 4, 5, 6, 7, 8 or 9 - EAN.UCC  Company Prefix		
Enterprise Identifier	AN	1/13	С	Code identifying the Enterprise that assigned the item with the UID data elements. If UII Type is UID1 or UID2, this is the same Enterprise Identifier that was used in the construct. Required if UII Type is UID1 or UID2.		
Batch/Lot	AN	1/20	С	The batch/lot identification of the item if applicable. Required if the UII Type is UID2 and the Lot/Batch was used within the UII.		
Original Part Number	AN	1/32	С	The Enterprise assigned Part Number corresponding to the assigned UII. Required if the UII Type is UID2 and the Part Number was used within the UII.		

	Item Record						
		Min/					
Field Name	Format	Max	Req	Description			
Serial Number	AN	1/30	С	The Enterprise assigned Serial Number corresponding to the assigned UII. The serial number may be within the Enterprise or within the Original Part Number. Required if UII Type is UID1 or UID2.			
Description	AN	1/250	M	Description of the item.			
Procurement Instrument Number	AN	1/25	С	The unique identifier for the award instrument under which the item was procured. Do not include the 4 character order number that denotes a unique delivery order, task order, or call order. Required when Procurement Instrument Number Type is provided. Required when Procurement Instrument Number Order Number is provided.			
Procurement Instrument Order Number	AN	4/4	О	The delivery order, task order, or call number when applicable.			
Procurement Instrument Number Type	AN	5/30	C	The type of award instrument.  Values: DOD CONTRACT (FAR) DOD CONTRACT (NON-FAR) – includes items acquired with non-appropriated funds GRANT COOPERATIVE AGREEMENT OTHER AGREEMENT – arrangements with non-Governmental entities that don't fit into any of the 5 contract types listed above INTERGOVERNMENTAL – e.g. MIPR – includes organic manufacture INTRAGOVERNMENTAL – i.e. bought from state or local government in the US MICROPURCHASE NON-DOD CONTRACT (FAR) NON-DOD CONTRACT (NON-FAR) INTERNATIONAL AGREEMENT – i.e. acquired from foreign government, or international entity such as the United Nations.  Required when Procurement Instrument Number is provided.			
Procurement Prime Contractor Identifier	AN NO	5/5 9/9	С	The 9-digit DUNS or 5-character CAGE of the contractor that is responsible for reporting all UIIs of the delivered items to the Government. Required from Vendors for new procurement; not required when reporting legacy or embedded items.			
Procurement Line Item	AN	4/8	С	The purchase contract line item. Required from Vendors for new procurement; not required when reporting legacy or embedded			

Item Record							
T10 1 1 1 1 1	<b>T</b>	Min/	_	<b>D</b>			
Field Name	Format	Max	Req	Description Control of the Control o			
Acceptance Code	AN	6/6	С	DoDAAC or MAPAC of the Government entity that accepted the item. Required from Vendors for new procurement; not required when reporting legacy or embedded			
Acceptance Date	DT	10/10	С	The date that the item is accepted by the Government entity. Required from Vendors for new procurement; not required when reporting legacy or embedded			
Ship To Code	AN	1/20	С	DoDAAC, MAPAC, or other code representing the location the item was shipped to. Required from Vendors for new procurement; not required when reporting legacy or embedded			
Acquisition Cost	R	2/18	С	Unit Price as defined in the procurement contract or as defined at delivery by the contractor.  Required from Vendors for new procurement; not required when reporting legacy or embedded			
Foreign Currency Code	AN	3/3	С	International Organization of Standardization code from ISO 4217 representing the currency unit of Acquisition Cost. Will default to "USD" if Acquisition Cost is provided and Foreign Currency Code is not.			
Unit of Measure	AN	2/2	С	Unit of Measure associated with the Acquisition Cost of the item. Required from Vendors for new procurement; not required when reporting legacy or embedded (For list of codes, see ASC X12 Standards Element 355.)			
Current Part Number	AN	1/32	O	Used only if the item's UII Type is UID2, the Original Part Number is used in the UII, and the current part number is different from the Original Part Number. Must be provided if Current Part Number Effective Date is provided.			
Current Part Number Effective Date	DT	10/10	С	The date the item was modified or changed to the current part number from a previous part number. Must be provided if Current Part Number is provided.			
Manufacturer Code	AN	1/3	О	Designator to indicate which code was used in the Manufacturer Identifier. Required if Manufacturer Identifier is provided.  Values:			
				D - CAGE  LB - ANSI T1.220  LD - DoDAAC  LH - EHIBCC  UN - DUNS  0, 1, 2, 3, 4, 5, 6, 7, 8 or 9 - EAN.UCC  Company Prefix			
Manufacturer Identifier	AN	1/13	С	Code identifying the Manufacturer that produced the item if different from the Enterprise Identifier.			
National Stock Number	N	13/13	О	The 13 digit stock number used to identify items of supply as defined in DoD 4140.1-R.			

Item Record						
		Min/				
Field Name	Format	Max	Req	Description The UII of the item that the item is embedded in.		
Parent UII	AN	1/50	С	Required if Item Type contains 'EMB".		
Mark Method	A	3/3	I	Optional. Must be one of the following:		
1/14/11/1/4/100		0,0	_	INT – Intrusive		
				NON – Non-Intrusive		
Mark Grade	A	1/1	I	Optional.		
				When Mark Method is "INT", use one of the		
				following:		
				F –Fail		
				P – Pass		
				When Mark Method is "NON", use one of the		
				following:		
				A B		
				C		
				D		
				Е		
Warranty	A	2/3	С	Indicates whether or not a warranty accompanies the item.		
				Values:		
				NO		
				YES		
				UNK – when it is unknown if there is a		
				warranty or not		
				Required when either or both of the following is true:		
				• Item Type is "END"		
				• Population Type is "NEW".		
Special Tooling or	AN	1/40	С	Denotes the item's special tooling or special test		
Test Equipment Status				equipment status. Must be one of the following values:		
				"NOT SPECIAL TOOLING OR TEST		
				EQUIPMENT"		
				"SPECIAL TEST EQUIPMENT (STE)"		
				"SPECIAL TOOLING (ST)"		
				Required when Item Type is "END". Do not provide when Item Type is "EMB"		
ST/STE Effective Date	DT	10/10	С	The date the special tooling or test equipment		
				status is effective for the item.		
				Required when Item Type is "END". Do not		
				provide when Item Type is "EMB"		

Item Record

### **Custody Record (A200)**

Provide one record if, in the Item Record, the Population Type contains "PPC" and the Item Type contains "END"; otherwise; do not provide. There may be one and only one Custody Record per Item Record.

Custody Record							
		Min/					
Field Name	Format	Max	Req	Description			
Record Type	A	1/1	M	Always "A"			
Record Number	N0	3/3	M	Always "200"			
UII	AN	1/50	M	The Unique Identifier that ensures uniqueness of			
				all items listed in the registry.			
Action Type	A	3/3	M	Identifies the action taken when an item is moved			
				from one location or contract to another. Select			
				from the following list:			
				SND – Provides the sent date only			
				REC – Provides the received date only			
				BTH – Provides the ship date and			
				received date			
Direction Flag	A	1/1	M	Identifies the recipient of the item when it is			
				moved from one location or contract to another.			
				Select from the following list:			
				G – Government			
				K - Contractor			
Activity Type	A	3/3	M	Identifies the type of custody change that is being			
				recorded. Select from the following list:			
				GFP – movement of Government			
				Furnished Property			
GFP Contract Number	AN	1/25	M	The unique identifier for the award instrument			
				under which the item is currently designated as			
				GFP. Does not include the 4 character order			
				number that denotes a unique delivery order, task			
				order, or call order.			
GFP Contract Order	AN	4/4	О	Thedelivery order, task order, or call order when			
Number				applicable.			

		Cu	Record

Field Name  GFP Contract Number	Format AN	<b>Max</b> 5/30	Req M	Description The type of award instrument under which the
Type	AIN	3/30	IVI	item is currently designated as GFP.
1,100				nom is currently designated as GIT.
				Values:
				DOD CONTRACT (FAR)
				DOD CONTRACT (NON-FAR) – includes items
				acquired with non-appropriated funds GRANT
				COOPERATIVE AGREEMENT
				OTHER AGREEMENT – arrangements with non-
				Governmental entities that don't fit into any of the
				5 contract types listed above
				INTERGOVERNMENTAL – e.g. MIPR –
				includes organic manufacture INTRAGOVERNMENTAL – i.e. bought from
				state or local government in the US
				MICROPURCHASE
				NON-DOD CONTRACT (FAR)
				NON-DOD CONTRACT (NON-FAR)
				INTERNATIONAL AGREEMENT – i.e. acquired from foreign government, or international entity
				such as the United Nations.
GFP Prime Contractor	AN	5/5	С	The 5-character CAGE Code of the Prime
CAGE	·			Contractor specified in the GFP contract. At least
				one of CAGE, DoDAAC, and DUNS must be
CED D : C	NIO	0./0	- C	reported.
GFP Prime Contractor DUNS	N0	9/9	С	The 9-digit DUNS Code of the Prime Contractor specified in the GFP contract. At least one of
DUNS				CAGE, DoDAAC, and DUNS must be reported.
GFP Prime Contractor	AN	6/6	С	The 6-character DoDAAC or MAPAC of the
DoDAAC				Prime Contractor specified in the GFP contract.
				At least one of CAGE, DoDAAC, and DUNS
G	_	1 /1	3.6	must be reported.
Category Code	A	1/1	M	Used when recording change in custody of GFP.  Must be one of the following codes:
				Must be one of the following codes.
				"E" - Equipment: A tangible article of personal
				property that is complete in-and-of itself, durable,
				nonexpendable, and needed for the performance of
				a contract. Equipment generally has an expected
				service life of one year or more, and does not ordinarily lose its identity or become a component
				part of another article when put into use.
				"M" - Material: Property that may be consumed or
				expended during the performance of a contract,
				component parts of a higher assembly, or items that lose their individual identity through
				incorporation into an end-item. Material does not
				include Equipment, Special Tooling, Special Test
				Equipment, or Unique Federal Property.

Custody Record						
		Min/				
Field Name	Format	Max	Req	Description		
Received Date	DT	10/10	С	The date the item is received by the Contractor.		
				Required when Action Type contains "REC" or		
				"BTH".		
Sent Date	DT	10/10	С	The date the item is sent to the Contractor.		
				Required when Action Type contains "SND" or		
				"BTH".		

### Mark Record (A300)

Provide one or more records if the Compliant Mark Flag in the Item Record contains "N". If the Compliant Mark Flag in the Item Record contains "Y", recording marks other than the 2D Compliant UII is optional. If the Compliant Mark Flag in the Item Record contains "Y", do not provide a Mark Record for the 2D Compliant UII.

For an associated UII (it is not marked on the item), two or more records are required; one to record the "DEFINED" UII, and one or more to record the physical marks.

		ecord		
		Min/		
Field Name	Format	Max	Req	Description
Record Type	A	1/1	M	Always "A"
Record Number	N0	3/3	M	Always "300"
UII	AN	1/50	M	The Unique Identifier that ensures uniqueness of items listed in the registry.
Action Type	A	3/3	M	Identifies the action taken against a mark. Select from the following list:  ADD – Mark is added, not previously reported
Bagged Or Tagged Code	A	1/1	M	"Y" if mark applied according to the Bag and Tag Business Rules else "N".
Mark Contents	AN	1/25	M	What has been recorded on or with the item. For UII, must contain "UID". All non-UII markings must be marked physically on the item. Must be one of the following values:  CONTRACT NUMBER DATE OF MANUFACTURE FAA CERTIFICATION HULL NUMBER INTERNAL ASSET NUMBER INTERNAL ASSET NUMBER ITEM NOMENCLATURE LOT NUMBER MANUFACTURER CAGE MANUFACTURER NAME NATIONAL STOCK NUMBER PART NUMBER PROPERTY CONTROL NUMBER SERIAL NUMBER SERVICE/AGENCY/COMMAND SUPPLIER NAME TAIL NUMBER TYPE DESIGNATION UID USA NUMBER USAF NUMBER USAF NUMBER USNC NUMBER USNC NUMBER USNC NUMBER USNC NUMBER USNC NUMBER USNC NUMBER

## Rollover Record (E400)

Use to record the change in an item's part number, batch/lot number, or National Stock Number due to a change in the item's form, fit, or function and any costs associated with that change.

Rollover Record						
		Min/				
Field Name	Format	Max	Req	Description		
Record Type	A	1/1	M	Always "E"		
Record Number	N0	3/3	M	Always "400"		
UII	AN	1/50	M	The Unique Identifier that ensures uniqueness of		
				the item in the registry.		
Rollover Type	A	11/25	M	The type of rollover.		
				Values: BATCH OR LOT NUMBER NATIONAL STOCK NUMBER PART NUMBER		
Rollover Value	AN	1/32	M	The new value assigned to the item as identified by the Rollover Type because of the rollover event.		
Acquisition Value	R	2/18	M	The cost of the rollover incurred by the DoD.		
Foreign Currency Code	AN	3/3	С	International Organization of Standardization code from ISO 4217 representing the currency unit of Current Acquisition Value. If not provided, will default to "USD".		
Rollover Contract Number	AN	1/25	M	The unique identifier of the award instrument under which the rollover occurred. Does not include the 4 character order number that denotes a unique delivery order, task order, or call order. In some situations, this may be the same award instrument under which the item is designated as GFP.		
Rollover Contract Order Number	AN	4/4	О	The delivery order, task order, or call order when applicable.		

Rollover Record						
	Min/					
Format	Max	Req	Description			
AN	5/30	M	The type of award instrument provided in Rollover			
			Contract Number.			
AN	1/250	M	Values:  DOD CONTRACT (FAR)  DOD CONTRACT (NON-FAR) – includes items acquired with non-appropriated funds GRANT  COOPERATIVE AGREEMENT  OTHER AGREEMENT – arrangements with non-Governmental entities that don't fit into any of the 5 contract types listed above INTERGOVERNMENTAL – e.g. MIPR – includes organic manufacture  INTRAGOVERNMENTAL – i.e. bought from state or local government in the US  MICROPURCHASE  NON-DOD CONTRACT (FAR)  NON-DOD CONTRACT (NON-FAR)  INTERNATIONAL AGREEMENT – i.e. acquired from foreign government, or international entity such as the United Nations.			
AN	1/250	M	New description of the item that reflects the rollover.			
DT	10/10	M	The date the item incurred the rollover.			
A	2/3	О	Indicates whether or not a new warranty is			
			provided with the item due to the rollover.			
			Values:  NO YES UNK – when it is unknown if there is a warranty or not

## Embedded Record (E500)

Use to record when the item is embedded into a parent item, the item is removed from a parent item, and when the item is removed from one parent item and placed into another parent item.

Parent Record						
		Min/				
Field Name	Format	Max	Req	Description		
Record Type	Α	1/1	M	Always "E"		
Record Number	N0	3/3	M	Always "500"		
UII	AN	1/50	M	The Unique Identifier that ensures uniqueness of		
				the item in the registry.		
Action Type	A	3/3	M	Identifies whether an item was embedded into		
				another item, removed from an item, or removed		
				from one item and embedded into another. Select		
				from the following list:		
				ADD – Item is embedded into another		
				item.		
				RMV – Item is removed from another		
				item.		
				RPL – Item is removed from one item		
				and embedded into another item.		
Effective Date	DT	10/10	M	The date the item was embedded into another item		
				or removed from an item.		
Parent UII	AN	1/50	C	The UII of the parent item. Not required when an		
				item is being removed from another item. When		
				Action Type = "RPL", this is the UII of the		
				gaining parent item.		

#### Life Cycle Event Record (E600)

Use to record the life cycle event indicating a change in an item's state, condition, or situation. Definitions are provided below.

The life cycle events are separated into two categories except for Scrapped, Retired, and Reintroduced which is in neither category:

Category I	Category II
Abandoned	Donated
Consumed	Exchanged - Repair
Destroyed - Accident	Exchanged - Sold
Destroyed – Combat	Exchanged - Warranty
Expended – Experimental/Target	Leased
Expended – Normal Use	Loaned
Lost	Sold – Foreign Govt
Stolen	Sold – Historic
	Sold – Nongovt
	Sold – Other Federal
	Sold – State/Local

Life Cycle Event Record						
Field Name Format Max Req Description						
Record Type	A	1/1	M	Always "E"		
Record Number	N0	3/3	M	Always "600"		
UII	AN	1/50	M	The Unique Identifier that ensures uniqueness of the item in the registry.		

Life Cycle Event Record					
		Min/	_		
Field Name	Format	Max	Req	Description (TI

State or Province	AN	1/50	С	Category I: Must provide at least one of City and 'State or Province' if Country is provided.  Category II: Must provide at least one of City and 'State or Province'.		
Country	AN	2/2	С	When provided, the value must be from the International Standard Organization (ISO) 3166-1 alpha 2 standard.  Category I: Must provide if City and/or 'State or Province' is provided.  Category II: Required.		
Postal Code	AN	1/15	С	The postal code of the site or organization.  Category I: Optional.  Category II: Postal code of the entity listed in Name. Required if Country is "US".		
Name	AN	1/70	С	The name of the entity who received the item.  Category I: Not used.  Category II: Required.		
Other	AN	1/70	С	Category I: Used when the other information is insufficient. For example, if a ship is sunk in the middle of a body of water, enter the name of the body of water. E.g. Arabian Sea.  Category II: Not used.		

Life Cycle Events					
Event	Definition				
Abandoned	Property surrendered by a Federal agency after a written determination that the property has no commercial value, or the estimated cost of its continued care and handling would exceed the estimated proceeds from its sale. An item has no commercial value when it has neither utility nor monetary value (either as useable property or as scrap).				
Consumed	Non-reversibly incorporated into another item.				
Destroyed-Accident	Destroyed during a fire, natural disaster, or other unplanned natural or man- made incident.				
Destroyed-Combat	Destroyed by the enemy during combat.				
Donated	Surplus property provided to a Service Educational Activity; a State, political subdivision, municipality, or tax-supported institution acting on behalf of a public airport; a public agency; a public body; a charitable institution; or any State or local government agency, and certain nonprofit organizations or institutions.				
Exchanged-Sold	Provided to a supplier for credit.				
Exchanged-Repair	Provided to a supplier for equivalent replacement part.				

Life Cycle Events							
Event	Definition						
Exchanged-Warranty	Provided to a supplier for an equivalent replacement part or credit while under						
	warranty.						
Expended-	Such as the firing of a missile during training exercises and for testing; items						
Experimental/Target	destroyed while serving as a target during training exercises and tests.						
Expended-Normal Use	Such as in the firing of a missile during combat or consumed during a						
	manufacturing process.						
Leased	Property that is granted to a lessee for a period of time in exchange for rent or						
	other consideration.						
Loaned	Owned by a DoD Component and loaned to contractors, scientific institutions						
	or other organizations.						
Lost	Property that cannot be located or otherwise accounted for.						
Reintroduced	When an item is returned to DoD service.						
Retired	Withdrawn from normal service; taken out of use. Includes decommissioned,						
	stricken, sunken, transferred to AMARC/DRMS, etc.; excludes temporary						
	idling of the item.						
Scrapped	Waste material that will be reused or reprocessed.						
Sold-Foreign Govt	Title transferred to non-US governmental entities with compensation.						
Sold-Historic	Title transferred to a museum or similar entity with compensation.						
Sold-Nongovt	Title transferred to non-governmental entities such as churches, organizations,						
	etc. with compensation.						
Sold-Other Federal	Title transferred to non-DoD Federal Agencies with compensation.						
Sold-State/Local	Title transferred to non-Federal governmental entities with compensation.						
Stolen	Lost via theft.						

## Miscellaneous I Record (E700)

Use to record changes to an item in one or more of the following areas:

- Special Tooling or Test Equipment Status
- Type Designation
- Item Owner
- Condition

Miscellaneous I Record							
		Min/					
Field Name	Format	Max	Req	Description			
Record Type	A	1/1	M	Always "E"			
Record Number	N0	3/3	M	Always "700"			
UII	AN	1/50	M	The Unique Identifier that ensures uniqueness of			
				items listed in the registry.			
				If an item's special tooling or test equipment status			
				changes, provided Special Tooling or Test			
				Equipment Status and ST/STE Effective Date.			
Special Tooling or Test	AN	1/40	О	Denotes the item's special tooling or special test			
Equipment Status				equipment status. Must be one of the following			
				values:			
				"NOT SPECIAL TOOLING OR TEST			
				EQUIPMENT"			
				"SPECIAL TEST EQUIPMENT (STE)"			
				"SPECIAL TOOLING (ST)"			
				If provided, ST/STE Effective Date must be			
				provided.			
ST/STE Effective Date	DT	10/10	О	The date the special tooling or test equipment			
				status is effective for the item.			
				If provided, Special Tooling or Test Equipment			
				Status must be provided.			
				If an item's type designation changes, provide			
				Type Designation Method, Type Designation			
				Value, and Type Designation Effective Date.

## **Records to Record GFP without UIIs (G)**

These records are used to record information about items provided as Government Furnished Property that are not uniquely identified with a UII. Each item or group of items may be identified by a serialized serial number, a national stock number, or by the combination of a manufacturer's CAGE and unit acquisition cost.

#### **GFP without UIIs Record (G100)**

Provide one for each bin (item or group of items) to which all of the other data applies.

GFP without UIIs Record							
		Min/					
Field Name	Format	Max	Req	Description			
Record Type	A	1/1	M	Always "G"			
Record Number	N0	3/3	M	Always "100"			
GFP Record Identifier	N5	1/5	M	A sequential identifier that uniquely identifies this record just within this file. The first GFP Record Identifier is '1', the second '2', and so forth. It will be used to identify other GFP records that are associated with this record within this file.			
GFP Procurement Instrument Number	AN	1/25	M	The unique identifier of the procurement instrument under which the item was provided as GFP. Does not include the 4 character order number that denotes a unique delivery order, task order, or call order.			
GFP Procurement Instrument Order Number	AN	4/4	О	The delivery order, task order, or call order when applicable.			
GFP Procurement Instrument Number Type	AN	5/30	M	The type of award instrument.  Values: DOD CONTRACT (FAR) DOD CONTRACT (NON-FAR) – includes items acquired with non-appropriated funds GRANT COOPERATIVE AGREEMENT OTHER AGREEMENT – arrangements with non-Governmental entities that don't fit into any of the 5 contract types listed above INTERGOVERNMENTAL – e.g. MIPR – includes organic manufacture INTRAGOVERNMENTAL – i.e. bought from state or local government in the US MICROPURCHASE NON-DOD CONTRACT (FAR) NON-DOD CONTRACT (NON-FAR) INTERNATIONAL AGREEMENT – i.e. acquired from foreign government, or international entity such as the United Nations.			

GFP without UIIs Record

Item Characteristic Value	AN	1/50	M	The value of the item characteristic.				
Item Characteristic	DT	10/10	0	The effective date of the item characteristic.				
Effective Date								

## **Document Identifier Record (G400)**

One or more of these records is used, as applicable, to identify documents associated with the item(s). When provided, the information applies to all items in the referenced GFP without UIIs Record (G100).

Document Identifier Record						
Min/						
Field Name	Format	Max	Req	Description		
Record Type	A	1/1	M	Always "G"		
Record Number	N0	3/3	M	Always "400"		
GFP Record Identifier	N5	1/5	M	A unique identifier that points to the G100 record		
				to which this record applies.		

Document Identifier Record							
		Min/	_	- · ·			
Field Name	Format	Max	Req	Description			
Document Identifier	AN	1/60	M	The description of the item characteristic. Must be

# **Records to Correct Item Data (C)**

These records are used to correct data that has been entered erroneously into the IUID Registry.

Details TBD.

# File Trailer Record (T900)

The File Trailer Record must be the last record in every file.

There must be one and only one per file.

Trailer Record				
		Min/		
Field Name	Format	Max	Req	Description
Record Type	A	1/1	M	Always "T"
Record Number	N0	3/3	M	Always "900"
File Date	DT	10/10	M	The date the file was created.
Record Count	N0	1/6	M	The total number of records in the file including
				the Header and Trailer Records.

## **Examples**
