Record Header	The **Status** field only displays for records that have a DCAA Audit Report Number. The "Target Resolution Date" has been missed (>-24:00 hours than today's 00:00 GMT); until the "Actual Resolution Date" is populated, OR

	b. The "Target Disposition Date" has been missed (>-24:00 hours than today's 00:00 GMT); until the "Disposition Date" is populated or the action hits the six months and one day mark. 2. The "Status" will reflect "OA 6" (Over Age Six Months) when the "Target Disposition Date" is missed by more than six months, until a. "Disposition Date" is populated, OR b. "Yes" is selected in the "All CO Actions Complete" data field. 3. The "Status" will reflect "OA 12" (Over Age Twelve Months) when the "Target Disposition Date" is missed by more than twelve months, until a. "Disposition Date" is populated, OR b. Additional Field Information	*Status* A record created manually or via the flat file upload the read-only "Status" field will be auto-populated on all standard Records and SubRecords. The "Status" values will be: “Less than 6 months”, “6 to 12 months”, “Over 12 months”, “Closed”, “Deferred Litigation”, or “Deferred Investigation” (designation depends on the following statements).

Scenario 1:

The record is not in a "Deferred Investigation", "Deferred Litigation", or "Closed" pipeline position.

Then the read-only "Status" field will be auto-populated with an age category status and the age category status is calculated based on the "Report Date" field (“Less than 6 months”, “6 to 12 months”, “Over 12 months”) in comparison to the user's system date (current date).

For example, Report Date is 09/1/2023 and today is 3/11/2024, the difference between the dates is 6 months and 11 days, so the status would show "6 to 12 months".

Scenario 2:

The record is in the Deferred pipeline position (designated by a date in the “Deferred Status Date” field, but not one in the “Deferred Status Removed Date” field).

“Yes” is selected in the “In Litigation” field.

Then the read-only "Status" field will be auto-populated with “Deferred Litigation” status.

Scenario 3:

The record is in the Deferred pipeline position (designated by a date in the “Deferred Status Date” field, but not one in the “Deferred Status Removed Date” field).

“Yes” is selected in the “Criminal Investigation Involvement” field.

Then the read-only "Status" field will be auto-populated with “Deferred Investigation” status.

Scenario 4:

"Record Closed Date" has been populated.

Then the read-only "Status" field will be auto-populated with “Closed" status.
